Charger

If your turn signals have stopped working, it'll be doing one of these things: blinking rapidly, coming on without blinking, or nothing at all. The good news is that all of these symptoms point to two possible issues, a bad turn signal relay or a dead bulb. If the signal blinks really fast, you have a bulb out on that side. If it doesn't come ...

How to Check and Replace a Turn Signal Flasher

I just purchased a 2006 Ram 1500 megacab with the 5.7 hemi. After about 2 days of driving, the right turn signal indicator started

Side rear turn signal is at normal brightness.

2006 Dodge Grand Caravan -
Turn signal on driver side

...

Remember that the rear should only have 2 wires on each side since the rear signals do not have running light feature. That means that you will find 1 wire for ground and 1 wire for signal pulse. The signal pulse wire should be the same color as the fronts so check and compare your wiring and note which color this is.
